Cheng Xin

email: cx122@rutgers.edu || phone: +1 (610) 597-1901 || website: jackal092927.github.io

Bio: Cheng Xin received his Ph.D. in Computer Science from Purdue University under the supervision of Dr. Tamal K. Dey, specializing in fundamental research in **topological data analysis** and **machine learning**. He is currently a postdoctoral researcher in the Computer Science Department at Rutgers University, advised by Dr. Jie Gao, with publications in top-tier venues including **NeurIPS, ICML, CVPR, and SOCG**. His research focuses on creating **trustworthy**, **robust**, and **theoretically grounded** AI system by developing mathematically rigorous foundations that bridge **topology**, **geometry**, and **machine learning**.

RESEARCH & EDUCATION

Department of Computer Science, Rutgers University — Oct 2023 – Present
- Postdoctoral Researcher, Advisor: Prof. Jie Gao
  - Developing topological frameworks for **interpretable AI** and graph neural networks
  - Exploring **non-Euclidean representations** for machine learning.
  - Contributing to large-scale datasets for **3D/video generation**

Department of Computer Science, Purdue University — Aug 2020 – Aug 2023
- Ph.D. in Computer Science, Advisor: Prof. Tamal K. Dey
  - Dissertation: Decomposition and Stability of Multiparameter Persistence Modules

Department of Computer Science and Engineering, The Ohio State University — Jan 2017 – Aug 2020
- Ph.D. in Computer Science, Advisor: Prof. Tamal K. Dey
  - Developed generalized persistence algorithms for multiparameter persistence modules

Department of Computer Science, Lehigh University — Jan 2014 – May 2016
- M.S. in Computer Science, Advisor: Prof. Xiaolei Huang
  - Thesis: Machine Learning Techniques for Cervigram Image Analysis
  - Research Focus: Medical image analysis, machine learning applications

Tongji University, Shanghai, China — Sep 2009 – Jul 2013
- B.Eng. in Software Engineering

INVITED TALKS

- "Understanding through Shape of Data: Topological Data Analysis for Interpretable AI," Management Science and Information Systems Department Colloquium, Rutgers University, October 2024
- "Exploring Representations Beyond Euclidean Geometry," John Hopcroft Center (JHC) Seminar, Shanghai Jiao Tong University, June 2024
- "Generalized persistence algorithm for decomposing multi-parameter persistence modules," Applied Algebraic Topology Network Seminar, July 2020
- "Multiparameter Persistence and Its Applications," Theory Seminar, Department of Computer Science, Rutgers University, November 2023

HONORS AND REWARDS

- The first place winner of 2017 Microsoft's college code competition at The Ohio State University
- The first place winner of 2015 Microsoft's college code competition at Lehigh University
- Third Prize of 2013 Tongji coding competition
- Third Prize Scholarship of Tongji University

TEACHING EXPERIENCE

- Teaching Assistant of undergraduate course, Data Structures and Algorithms, 2023 Spring (200 students)
- Teaching Assistant of graduate course, Computational Geometry, 2020 Fall (30 students)
- Lecturer of graduate course, Design and Analysis of Algorithms, 2025 Fall (45 students)

SKILLS

- Python, Pytorch, Spark, Keras, Java, C, C++, MATLAB, R

INTERESTS

- Climbing, Hiking, GO

† indicates authors are alphabetically ordered; ∗ represents co-first author.

INDUSTRIAL EXPERIENCE

Electronic Arts, Redwood City, CA, USA — May 2018 – Aug 2018

- Machine Learning Scientist Intern, Big Data Group
  - Large-scale Machine Learning Models on Spark
  - Graph Learning on relational database, attributes evaluation and selection, dataset compression

Amazon, Seattle, Washington, USA — May 2015 – Aug 2015

- Software Development Engineer Intern, AWS Infrastructure Group
  - Data management system for network messages supporting receiving, parsing, storing, and retrieving messages

Koal, Shanghai, China — Jul 2013 – Dec 2013

- Development Engineer, Platform Group
  - Fullstack Engineer: designed and implemented back-end database, business logic, interfaces, front-end UI

Microsoft, Shanghai, China — Jul 2012 – Nov 2012

- Developer Support Intern, Database Business Intelligence Group
  - Troubleshooting cases of SQL Server problems
